

24/563 plasma membrane region

5/183 cell projection membrane

3/91 leading edge membrane

9/232 cell leading edge

6/112 lamellipodium

32/682 somatodendritic compartment

3/37 neuronal cell body membrane

7/129 neuron spine

10/262 postsynapse

24/568 synapse

3/57 dendritic shaft

22/477 axon

5/139 synaptic membrane

3/70 presynaptic membrane

3/27 obsolete intrinsic component of synaptic membrane

33/606 obsolete intrinsic component of plasma membrane

7/179 membrane microdomain

15/352 supramolecular polymer

6/75 I band

0/10 myofilament

4/213 actin cytoskeleton

4/53 cell-cell contact zone

15/287 anchoring junction

25/309 cell surface

5/95 external side of plasma membrane

1/19 protein folding chaperone complex

26/584 secretory vesicle

2/22 intraciliary transport particle

24/459 cilium

7/115 ciliary basal body

12/174 motile cilium

9/148 microtubule associated complex

4/31 axonemal dynein complex

8/75 dynein complex

15/381 cytoplasmic region

8/139 plasma membrane bounded cell projection cytoplasm

0/14 guanylate cyclase complex, soluble

2/73 coated membrane

22/674 ribonucleoprotein complex

5/55 small ribosomal subunit

16/667 nucleolus

38/975 organelle envelope

25/492 mitochondrial envelope

5/143 obsolete mitochondrial membrane part

6/176 mitochondrial protein-containing complex

1/98 oxidoreductase complex

0/18 cytochrome complex

11/343 mitochondrial matrix

7/80 organelle envelope lumen
