

Molecular Function

14/180 **ligase**

21/619 **ATP-dependent**

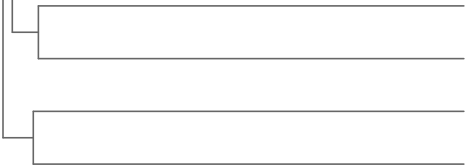

2/108 calcium ion transmembrane transporter

12/201 **structural constituent of ribosome**

1/12 phosphatidylinositol transfer

4/32 aspartic-type peptidase

Cellular Component

2/90 **I band**

2/123 **cell pole**

2/46 methyltransferase complex

6/239 **plastid stroma**

14/252 **cytosolic ribosome**

Biological Process

3/66 **sulfur amino acid metabolic process**

0/91 **secondary metabolite biosynthetic process**

15/490 **cellular homeostasis**

2/16 **positive regulation of phospholipid metabolic process**

14/275 **cytoplasmic translation**

2/11 **disaccharide biosynthetic process**
