

Symbiont Winter – CC

6/12 multi-eIF complex

p < 0.001

77/613 intracellular protein-containing complex

p < 0.01

77/303 ribosome

p < 0.05

7/10 enzyme activator complex

21/126 mitochondrial protein-containing complex

Up-regulated

1/28 phragmoplast

Down-regulated

64/343 plasmodesma

42/485 endosome

33/271 spliceosomal complex

4/22 neuron projection membrane

19/124 thylakoid

3/14 new mitotic spindle pole body
