

5/70 channel regulator

17/235 channel

28/468 cytoskeletal protein binding

8/160 actin binding

1/20 plus-end-directed microtubule motor

21/314 structural molecule

12/124 structural constituent of ribosome

52/679 RNA binding

4/79 unfolded protein binding

5/52 oxidoreduction-driven active transmembrane transporter

12/125 primary active transmembrane transporter

9/89 electron transfer

6/79 oxidoreductase, acting on NAD(P)H

7/55 oxidoreductase, acting on a sulfur group of donors

p < 1e-04

p < 0.001

p < 0.01
