

27/473 regulation of anatomical structure size

19/23 regulation of tubulin filament organization
27/280 regulation of epidermal growth factor receptor signaling pathway
14/0 mitotic nuclear membrane disassembly
35/647 mitotic cell cycle
40/257 nucleosome organization
4/233 spindle organization
28/519 protein phosphorylation
2/29 regulation of epidermal cell differentiation
4/2733 tissue morphogenesis
3/993 mesoderm morphogenesis
4/119 formation of primary germ layer
0/143 formation of primary spermatocytes
0/71 imaginal disc invagination
4/4396 cell fate commitment
2/814 end mesoderm morphogenesis
4/59 morphogenesis of an epithelial sheet
52/795 cell morphogenesis
15/285 neuron projection guidance
5/71 cardiac ventricle development
4/487 cardiac ventricle morphogenesis
24/415 heart development

3/60 muscle organ morphogenesis

24/431 heart development

33/466 cardiac development
5/254 endocardial morphogenesis
35/654 regulation of anatomical structure morphogenesis
49/924 regulation of Wnt signaling pathway
2/34 heart morphogenesis
2/24 face morphogenesis
5/55 foot of mouth development

25/946 locomotory movement

16/242 muscle organ development

26/431 muscle structure development

22/242 circulatory system process
12/148 regulation of vascular permeability
1/12 regulation of heart contraction
2/53 regulation of heart rate process
9/451 regulation of blood circulation

33/625 cell-cell signaling

12/265 locomotory behavior

24/305 G protein-coupled receptor signaling pathway

12/694 modulation of chemical synaptic transmission

5/204 positive regulation of synaptic transmission
3/80 regulation of amino acid transport
12/206 reproductive behavior
1/16 short-term memory

15/318 cognition

7/873 factory behavior

3/33 regulation of cellular G-protein-coupled receptor signaling pathway
5/29 regulation of signaling pathway
0/22 regulation of signaling pathway
3/28 neuromuscular process controlling balance

27/392 regulation of hormone levels

4/29 intracellular nonatomic anion homeostasis

25/282 response to acid chemical

30/141 acid metabolic process

0/17 negative regulation of DNA-templated transcription, elongation
0/16 response to hypoxia

4/29 intracellular transport involved in cilium assembly

28/488 proteolysis involved in protein catabolic process

6/1514 proteasomal protein catabolic process

20/216 response to endoplasmic reticulum stress

12/102 response to unfolded protein response

30/416 response to unfolded protein response

1/51 negative regulation of proteolysis involved in protein catabolic process

16/160 protein folding

4/17 obsolete protein mannosylation
1/24 regulation of RNA polymerase transcription initiation
2/26 positive regulation of DNA-templated transcription initiation
9/2423 amide biosynthetic process

9/2423 amide biosynthetic process

9/2423 amide biosynthetic process

9/2423 amide biosynthetic process

9/2423 amide biosynthetic process, nonsense-mediated decay

9/2423 amide biosynthetic process, nonsense-mediated decay

9/2423 amide biosynthetic process, nonsense-mediated decay

9/2423 amide biosynthetic process, nonsense-mediated decay

43/544 mRNA metabolic process

16/217 protein-RNA complex organization

3/233 modulation of protein homeostasis

4/2423080 ribosome assembly

4/2423080 ribosome assembly

4/2423080 ribosome assembly

4/2423080 ribosome assembly

4/2423080 ribosome assembly

4/2423080 ribosome assembly

4/2423080 ribosome assembly

4/2423080 ribosome assembly

4/2423080 ribosome assembly

4/2423080 ribosome assembly

4/2423080 ribosome assembly

4/2423080 ribosome assembly

4/2423080 ribosome assembly
