

14/180 ligase

21/619 ATP-dependent

2/108 calcium ion transmembrane transporter

12/201 structural constituent of ribosome

1/12 phosphatidylinositol transfer

4/32 aspartic-type peptidase

2/90 I band

2/123 cell pole

2/46 methyltransferase complex

6/239 plastid stroma

14/252 cytosolic ribosome

3/66 sulfur amino acid metabolic process

0/91 secondary metabolite biosynthetic process

15/490 cellular homeostasis

2/16 positive regulation of phospholipid metabolic process

14/275 cytoplasmic translation

2/11 disaccharide biosynthetic process
