

28/386 localization within membrane

3/45 inner mitochondrial membrane organization

4/83 protein localization to mitochondrion

59/1004 peptide transport

9/126 oxidative phosphorylation

54/615 amide metabolic process

14/233 translational initiation

33/406 ribonucleoprotein complex biogenesis

8/87 ribosomal large subunit biogenesis

61/828 RNA processing

9/43 IRE1-mediated unfolded protein response

24/249 response to endoplasmic reticulum stress

6/76 ERAD pathway

16/160 protein folding

27/473 regulation of anatomical structure size

25/276 circulatory system process

21/274 regulation of blood circulation

25/282 response to acid chemical

28/459 muscle structure development

11/135 cardiac chamber development

82/1283 cytoskeleton organization

27/452 actin filament-based process

21/183 regulation of small GTPase mediated signal transduction

1/35 short-term memory

15/318 cognition

55/836 cell-cell signaling

14/314 locomotory behavior

10/133 chemosensory behavior

24/305 G protein-coupled receptor signaling pathway
