

12/95 endoplasmic reticulum protein-containing complex

5/82 peptidase complex

5/54 small ribosomal subunit

22/239 obsolete cytosolic part

6/60 obsolete polysome

79/1155 ribonucleoprotein complex

6/34 rough endoplasmic reticulum membrane

2/36 spliceosomal tri-snRNP complex

13/226 mitochondrial protein-containing complex

67/963 organelle envelope

12/98 oxidoreductase complex

5/29 myosin complex

14/212 actin cytoskeleton

28/356 supramolecular polymer

5/80 cell division site

2/41 spindle midzone

13/235 spindle

8/226 chromosomal region

10/133 receptor complex

54/630 obsolete intrinsic component of plasma membrane

4/65 basal part of cell

5/93 neuron projection membrane

12/239 cell leading edge

11/147 synaptic membrane

44/658 plasma membrane region

13/267 postsynapse

14/193 cell projection membrane

3/131 perikaryon

6/148 neuron projection terminus

4/72 apical junction complex

14/290 anchoring junction

4/38 ciliary tip
