

4/83 protein localization to mitochondrion

59/1004 peptide transport

28/386 localization within membrane

4/20 antigen processing and presentation of peptide antigen via MHC class I

54/615 amide metabolic process

14/233 translational initiation

1/17 ribosomal small subunit assembly

8/87 ribosomal large subunit biogenesis

33/406 ribonucleoprotein complex biogenesis

35/479 obsolete ncRNA metabolic process

61/828 RNA processing

5/25 response to exogenous dsRNA

2/28 cell redox homeostasis

16/160 protein folding

9/43 IRE1-mediated unfolded protein response

24/249 response to endoplasmic reticulum stress

6/76 ERAD pathway

2/35 behavioral response to ethanol

14/314 locomotory behavior

1/35 short-term memory

15/318 cognition

6/128 response to ammonium ion

55/836 cell-cell signaling

10/133 chemosensory behavior

12/206 reproductive behavior

9/121 actin filament-based movement

25/276 circulatory system process

27/473 regulation of anatomical structure size

21/274 regulation of blood circulation

32/471 regulation of system process

13/186 regulation of vasoconstriction

7/83 response to fatty acid

25/282 response to acid chemical

82/1283 cytoskeleton organization

27/452 actin filament-based process

19/360 regulation of cytoskeleton organization

21/183 regulation of small GTPase mediated signal transduction

5/79 regulation of G protein-coupled receptor signaling pathway

2/23 adaptation of signaling pathway

2/15 cAMP metabolic process

24/305 G protein-coupled receptor signaling pathway

0/14 neural plate pattern specification

78/1273 regulation of nervous system development

4/186 cell fate specification

14/396 cell fate commitment

4/51 artery development

18/293 vasculature development

38/729 circulatory system development

11/135 cardiac chamber development

28/459 muscle structure development

5/66 roof of mouth development

2/44 face development

12/281 gastrulation

4/65 morphogenesis of an epithelial sheet

14/259 regulation of Wnt signaling pathway

2/81 leg disc development

4/76 imaginal disc pattern formation

0/17 negative regulation of DNA-templated transcription, elongation

33/425 generation of precursor metabolites and energy

9/126 oxidative phosphorylation

0/36 inner mitochondrial membrane organization

21/335 mitochondrion organization

3/70 proton transmembrane transport
