

3/62 protein kinase complex

12/286 chromosomal region

53/828 plasma membrane region

5/93 neuron projection membrane

22/374 cell leading edge

31/506 transport vesicle

4/183 perikaryon

14/130 cluster of actin-based cell projections

41/377 cell surface

4/72 apical junction complex

26/396 anchoring junction

8/139 basal part of cell

6/49 myosin complex

14/217 actin cytoskeleton

71/947 microtubule cytoskeleton

6/67 ciliary base

70/767 obsolete endoplasmic reticulum part

5/82 peptidase complex

5/54 small ribosomal subunit

79/1155 ribonucleoprotein complex

28/332 obsolete cytosolic part

7/194 spliceosomal complex

16/247 mitochondrial protein-containing complex

67/963 organelle envelope

2/39 proton-transporting two-sector ATPase complex
