

27/473 regulation of anatomical structure size

27/223 regulation of cellular component organization

27/220 regulation of GTPase mediated signal transduction

14/0 mitotic nuclear membrane disassembly

35/647 mitotic cell cycle

40/257 spliceosome organization

4/233 protein phosphorylation

28/519 protein phosphorylation

2/29 regulation of epidermal cell differentiation

4/2733 tissue morphogenesis

3/993 mesoderm development

4/119 formation of primary germ layer

0/143 formation of primary germ layers

0/71 imaginal disc invagination

4/4396 cell fate commitment

2/814 embryonic development

4/59 morphogenesis of an epithelial sheet

52/795 cell morphogenesis

15/285 neuron projection guidance

5/71 cardiac ventricle development

4/487 cardiac ventricle morphogenesis

24/415 heart development

3/60 muscle organ morphogenesis

33/466 muscle development

24/431 embryonic development

5/254 endoderm differentiation

35/654 regulation of anatomical structure morphogenesis

49/974 regulation of cytoplasmic signaling pathway

2/34 head morphogenesis

2/24 face morphogenesis

5/55 foot of foot development

25/946 locomotory movement

10/137 muscle system processing

16/242 muscle organ development

26/431 muscle structure development

22/242 circulatory system process

12/148 regulation of vascular permeability

1/12 regulation of heart contraction

2/53 regulation of heart rate process

9/451 regulation of blood circulation

12/625 cell-cell signaling

12/265 locomotory behavior

24/305 G protein-coupled receptor signaling pathway

12/394 modulation of chemical synaptic transmission

5/204 positive regulation of synaptic transmission

3/80 regulation of amino acid transport

12/206 reproductive behavior

1/16 short-term memory

15/318 cognition

6/112 associative learning process

7/812 olfactory behavior

3/33 regulation of cellular G-protein-coupled receptor signaling pathway

5/29 regulation of signaling pathway

6/22 regulation of signaling pathway

3/28 neuromuscular process controlling balance

27/392 regulation of hormone levels

4/29 intracellular homeostatic anion homeostasis

25/282 response to acid chemical

3/14 rRNA metabolic process

0/17 negative regulation of DNA-templated transcription, elongation

0/16 response to hypoxia

4/29 intracellular transport involved in cilium assembly

26/488 proteolysis involved in protein catabolic process

6/754 proteasomal protein catabolic process

20/216 response to endoplasmic reticulum stress

12/102 response to endoplasmic reticulum stress

30/416 response to unfolded protein response

1/51 negative regulation of proteolysis involved in protein catabolic process

16/160 protein folding

4/17 obsolete protein mannosylation

2/26 positive regulation of DNA-templated transcription initiation

2/26 positive regulation of DNA-templated transcription initiation
